PROJECTS

Fitness Tracker App
Mobile Application
Created a fitness tracking app that monitors user activity and provides personalized workout plans.

E-commerce Platform Upgrade
Led a project to upgrade an e-commerce platform, improving load times and user engagement significantly.

OBJECTIVE

Seeking a challenging software engineer position to leverage skills in development and problem-solving.

EXPERIENCE

Software Developer Intern
Tech Solutions
April 2024 - October 2024

- Developed a responsive web application using React and Node.js, enhancing user experience significantly.
- Collaborated with a team of five to optimize an existing database, reducing latency by 30%.
- Implemented new features based on user feedback, improving software functionality and user satisfaction.

Junior Software Engineer
Innovative Tech Solutions, Development Division
June 2023 - Present

- Designed and implemented new features for an e-commerce platform, enhancing customer experience.
- Conducted code reviews and provided mentorship to interns, fostering team collaboration and learning.
- Integrated payment gateways, increasing conversion rates by 15% through smoother transactions.

VOLUNTEER EXPERIENCE

Coding Mentor
Local Community Center
April 2022 - May 2023

- Assisted students in developing coding skills through hands-on workshops.
- Organized coding bootcamps for underprivileged youth, promoting tech literacy.
- Provided one-on-one mentorship, helping students complete their first software projects.
